The LinkedUp Award Scheme

Ideas, solutions and resources generated by groups of teachers and engaging employers are vital to the development of new approaches and making the case for language learning. They contribute to the ultimate aim for us all – better language learners, and more of them.

If you are working on an innovative language learning initiative that could be developed further by sharing it with others, you may be eligible to apply for funding through the LinkedUp Award Scheme.

Full application guidelines and an application form are available at www.linksintolanguages.ac.uk/linkedup
